

Furlough on a Prayer

Get ready, we're coming to the USA in late April of 2021! We've purchased tickets, so please be praying that our plans for furlough will come to fruition. We are arriving in LA in late-April, will be in Texas mid-May, head to Washington State, Oregon and Montana in June, and will finally fly back to Slovakia in July. We want to connect with you! We are making plans for a couple of open houses and are praying we get to see you then!

Workers and Family

Foursquare Missions International has been using the name, "worker" instead of missionary for a couple of years now, so we feel we need to also begin to use worker in our communications with all of you. It is really for the safety of workers in most nations, as governments have become wary and some even against anyone called missionary. In Europe, with COVID-19 restrictions hitting almost all countries hard, we as workers here have come to rely on each other as family. It has been a tough year for workers not being able to meet in person – either with one another or for ministry. Zoom meetings have helped us to feel closer and more like family, and connections have even grown deeper because of not being able to meet face to face. One of the ways we have been able to meet some needs in a practical way is sending timely encouragement gifts or flowers to show we care, since we cannot be there in person. You, our supporters, are making this possible. We thank you, as do our workers. It means so much!

BIF and a Covid Winter

Bratislava and all of Slovakia are heading into our 3rd month of hard lockdown, with vaccine distribution moving slowly and mass testing continuing in over half the districts. In the midst of this, we are in a series for our online services called Mission 21, where we are laying out equipping essentials to encourage the body to do what God has called us to. This coming Sunday we are engaging our community to be a part of the worship service through reading scripture that they choose and to offer prayers or a word from the Lord. This will all be recorded and premiered online on YouTube. God desires that we are all active participants, not just placeholders, on Sunday and every day. But this needs to be taught and carried out, just like Jesus did with the disciples. Be praying for all of us, as these actions have stirred up some resistance and spiritual battles. We are dependent on and so thankful for your prayers for us and BIF. You are investing in many nations through your work on your knees, praying for this small international fellowship in the beautiful little nation of Slovakia, hidden here in the very center of Europe. You bless us and we are so very grateful for you!
