

Plus 10 for 25

Foursquare Missions International (FMI) has traditionally never used any of the funds given to global workers to pay for the administration, training, and care needed to support these workers. In fact, they may be the only global worker sending organization that still operates that way. And while Foursquare's heart to make sure that workers have every penny to do the work they're called to do is very generous, it is not a sustainable model when the need for more field workers is so great. So, beginning in January of 2025, FMI will use 10% of each gift given to global workers to continue building our global worker support team and the important work they do.

We fully support this investment and have some time to "tell the story" in order to raise the additional support we will need to keep pace with our needs and all the work the Lord continues to invite us to join Him in. We were able to have this conversation with some of you who are already on our support team during our recent visit to the United States. A few of you asked how we would raise the additional support. Our answer was – while it is very challenging to grow additional support when living on the field, we trust the Lord will help us raise the extra 10% through a combination of (A) increased gift amounts from our current supporters, and (B) new supporters.

As we increase our own giving to global workers, will you join us in growing the reach and support of kingdom work worldwide? We truly prefer to ask for support in-person, but we felt the importance of this new initiative made it appropriate to ask here. Thank you for praying about increasing your gift amount or joining our team!

A Thorough Furlough

It was so good to see so many of you during our 2023 furlough! Family and friends that we have been apart from for four years, but who – even from a distance – support and pray for the work that the Lord continues to invite us to join Him in here in Europe. Open houses in both California and Washington, connections at churches and backyard barbeques. It filled our tanks and also made it all the harder to say goodbye once again. Thank you for welcoming us, feeding us, providing transportation for us, and encouraging us in the work we are doing here!

Missed the Open House Photos & Videos?

We ran a photo and video loop at each of our open houses. As expected, there was much conversation and afterwards many felt they didn't get a chance to see everything. Not to worry! Use the link below and you can experience the whole reel which includes many moments from our life and ministry over the last four years ... <http://podporaeuropa.org/2023-vloop>
